7/4/2011 17:52:21	Mahway, NJ 2011	Best Ever	The instructors were awesome! They told me everything I needed to know and wanted to know.	Actually debating; it's one of the funnest things ever!	I think it would be better with shorter lectures and more actual debating.	I think the camp was great, but it might be even better if it was a bit longer. That would give us more time to research and, of course, debate!	Absolutely	Student	Yes	
7/4/2011 21:53:24	Mahwah, NJ 2011	Best Ever	The two instructors that I spent the most time with (Tim Snyder and Josiah McPeak) were awesome. They made everything understandable, but challenging.	When the other advanced person and I got to go basically one-on-one instruction with Tim Snyder. It was epic.	At least for the advanced track, there was only one unique "lecture" so I would probably have to say that more options for lectures would help.	I came into this season thinking I had pretty much learned everything there was to learn from debate. Boy was I wrong. The Ethos staff took my expertise to a new level and taught me more than just how to be a good "TPer". They taught me how to be a good debater. It was instructive, it was challenging, and it was fun. 7/5/2011 8:00:50	Mawah, NJ 2011	Best Ever	Rated one to ten, about an 8 for awesomeness	Theory discussion and actual debates.	Not much I can think of. But I you are really looking for something, maybe find a way to have a full six round tournament (not overly important)	I enjoyed everything and learned a lot. This was a great camp. 7/6/2011 14:28:53	mahwah, nj	Best Ever	great. able to relate to the students but also commanded respect from both students and parents.	i think the "start and stop" debate was excellent. they were given immediate feedback for areas of improvement. would have liked more of this perhaps over the parli debate round. that was fun to watch but necessarily the most beneficial since this was a TP camp. i also didn't want to confuse the novices.		it was a great experience for the students and the parents. i learned alot! i especially appreciated the ethics talks. 7/7/2011 16:04:02	Mahwah, NJ 2011	Superior	Very instructive, great teachers, very helpful. The lectures were well organized and very helpful in getting me into a more advanced level of debate.	The stop and go debates where the instructors critiqued our speeches and told us what needed improvement was great.	Maybe a little more interactive activities throughout the lectures	Very well organized. I loved the teachers, and the lectures were extremely informative. The actual debating was also great, especially the ones that the instructors could stop and critique.	Absolutely	Student	Yes
