Don't Hear; Understand:

Lasting Impressions

*Ethos has coached three national champions by teaching the "communicative whole" of debate. We don't simply teach you **what** debate is about, but **how** it works and why it matters. We welcome challenges to our message because interaction internalizes.*

Convey Your Message:

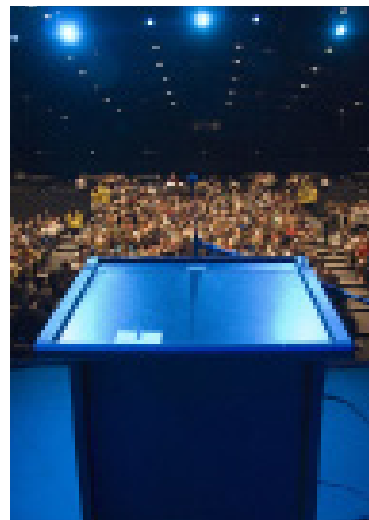

Develop Content

Learn tried-and-true techniques for communicating your message and outwitting your opponents. We will teach you to communicate complex content with clarity.

We will take your debate skills to the next level.

Learn by Doing:

Coached Practice

Participants will learn from the best, receive coaching, and improve on the spot.

They will practice what they have learned, internalizing course content.

Most importantly, they will learn the high ethical requirements of great communicators.
